

Dear Madam Kowalska,

I saw your advert in the notice board. I am very interested in it and I would like to apply for the position of maths teacher during the school year.

I am a psychologist and a humanist. I have just finished the studies in *Uniwersytet Jagielloński* in Krakow. I have worked with different kinds of people. My communication skills in the workplace have grown because of my internships. I participated in a collaborative web-consulting project for a work with students. In addition, I am a creative person with big imagination and thousands of ideas in one minute. I am extremely dedicated to my work and always try to do my best.

Thank you for considering my application. I look forward to your reply.

Yours faithfully.

Patryk Patkowski
